Innovative Products for the Weighing Industry

LTP-5D AC Surge-Protector

P/N: 40560

- Incoming AC line Surge Protection
- Physical Size: 2" H x 2.05" W x 4.005" L
- Mounting tabs on 3.5" centers
- (3) Three position barrier strips for incoming/outgoing wiring
- Multistage EMI/RFI Filtering
- Clamping time 3-5 nanoseconds
- Trip Point @ 130 VAC RMS
- Operating Current: 2.0 AMPS continuous / 3.5 AMPS intermittent
- Series Inductance: 200uH each line minimum
- Operating Range from: -45C to +85C
- Black molded polypropylene case, encapsulated for stability and maximum heat sinking
- Frequency: 47 – 63 inclusive; Maximum usable frequency 120 Hz
